## Hurricane Preparedness

Hurricane Season is upon us and typically runs from **June through November**. In fact did you know the first officially tracked hurricane in Hawaii recorded in 1950, it was named "Hurricane Hiki". The most recent damage-causing hurricane to hit the islands was in 1992 "Hurricane Iniki". So although it doesn't happen often, it does happen, so good to be prepared.

Here are some helpful tips:

- \* Get informed about hazards and emergencies that may affect you and your family.
- \* Develop an emergency plan
- \* Collect & assemble disaster supplies kit. **(We have supply lists available in the office)**
- \* Learn where to seek shelter from all types of hazards.
- \* Identify the community warning systems and evacuation routes.
- \* Include in your plan required information from community and school plans.
- \* Learn what to do for specific hazards.
- \* Practice and maintain your plan.

Or for more information on Disaster Preparedness go to Hawaii State Civil Defense website @ [www.scd.hawaii.gov/dp\\_kit.html](http://www.scd.hawaii.gov/dp_kit.html).

If you have been delivered the wrong package, you may either; leave it in the box and leave a note for the mailman, deliver it to the unit indicated on the box or package or simply return it to the post office.
