

HURRICANE PREPAREDNESS

COLONNADE ON THE GREENS MANAGEMENT

HURRICANE SURVIVAL KIT

You will need provisions to carry you through a week or more after the storm. Remember, there may be no electricity or clean water for days. Downed trees and other hurricane related debris blocking the roads will keep you from traveling far. Below are the most important items for your Supply Kit.

- Two weeks supply of prescription medicines.
- Two weeks supply of non-perishables/special dietary foods. Buy plenty of non-perishable foods because there won't be any refrigeration.
- Drinking water/containers: 1 gallon per person per day for two weeks. It's a good idea to sterilize the bathtub and fill it with water just before the storm.
- Flashlights and batteries for each member of the family.
- Portable radio (7 sets) batteries.
- First aid book and kit including bandages, antiseptic, tape, compress, non aspirin pain reliever, anti-diarrhea medication.
- Two coolers (one to keep food the other for ice)
- Water purification kits (tablets, chlorine (plain) and iodine).
- Infant necessities (medication, sterile water, diapers, ready formula and bottles)
- Clean up supplies (mop, buckets, towels, disinfectant)
- Camera and film
- Non-electric can opener
- Extra batteries for camera or portable TV or lamps
- Plastic trash bags
- Toilet paper, paper towels and re-moistened towelettes, eating utensils, masking tape and zip-lock bags to keep valuables safe from water.
- Gas
- Cash (With the possibility of losing power, banks may be closed and checks and credit cards may not be accepted and ATM's not be operational).
- Charcoal, wooden matches and grill and/or ice.
